

SCAUG AND YOU

ABOUT US

Established in 1990, the South Central Arc Users Group (SCAUG) is a nonprofit association of professionals using GIS and other spatial technologies to solve challenges in both public and private sectors at the regional, state, and local levels. SCAUG is the foremost GIS user group in the South Central United States promoting the effective use of spatial data and information technologies for the understanding and management of GIS

ABOUT US

SCAUG operates from a Charter and a set of Bylaws.

The Executive Board is elected each year by the at-large members and announced at the Annual Conference. The remaining positions are appointed by the Executive Board. All Board Members serve a one-year term except for the Treasurer & ESRI Representative which serve a 2 year term.
